# Pierre Chainier Touraine Sauvignon Blanc, AOP Touraine 2024

FPC969 PIERRE CHAINIER LOIRE, FRANCE

## PRODUCTION

---

Grown on flint, clay and limestone soils, the Sauvignon Blanc grapes are destemmed and crushed in an pneumatic press. After controlled settling, the juice undergoes alcoholic fermentation at about 18-19°C with selected yeasts. Ageing then takes place on the fine lees with no malolactic fermentation.

## TASTING NOTE

---

Gentle Sauvignon aromatics on the nose, complemented by a pithy blend of gooseberry and lemon on the palate that has lovely texture and a moreish, slightly grippy, mouth-watering finish.

## FOOD MATCH

---

A great, refreshing aperitif wine that can also be enjoyed with all kinds of smoked or grilled fish, classically good with a fresh goats cheese and happily works with the "difficult-to-pair" asparagus.
